

HootBooth PhotoBooth Illumin8+ Assembly Guide

1. Attach lower pedestal piece to base plate using two tri-side thumb screws

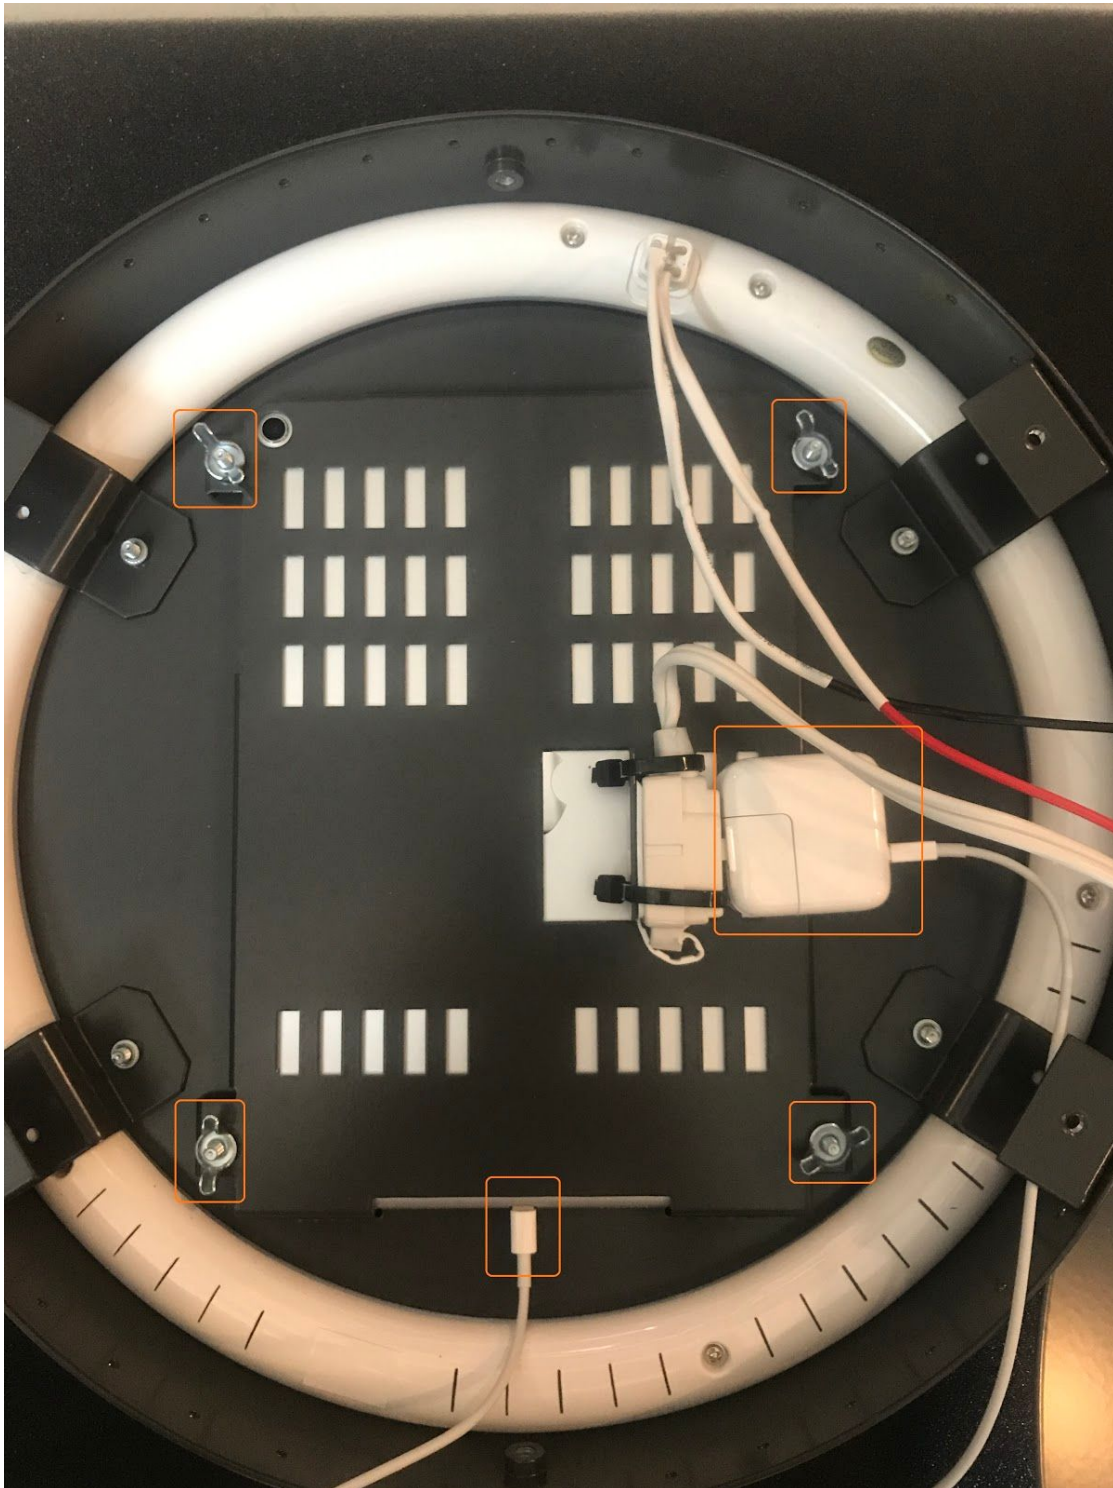

2. Attach upper pedestal piece to lower pedestal piece using 2 thumb screws

3. Remove four thumb screws from back cover of top piece.

4. Pull cover aside. Remove 4 wing nuts and place iPad inside, ensuring iPad orientation is correct. Plug iPad charger into available outlet inside unit. Plug lightning cable into iPad. **Power on iPad now.** Bundle wiring neatly. Replace wing nuts and back cover thumb screws.

5. Mount half-circle bracket to the top of the unit using single thumb screw

6. Mount top piece to half-circle bracket as shown below using two thumb screws. Ensure the black plastic spacers are installed as shown.

7. Plug power cable into wall outlet or extension cord and test that iPad is charging and ring light is working
